## AUTO-B-GOOD™ 9-Virtues SEL Program

### How do we compare with the competition?

We are here to help make things easy for you. This is why we have put together a little comparison to help determine which program best suits your needs. In addition to the ease of use that requires little to no prep, our fun and engaging video lessons have been classroom tested and student approved in thousands of schools worldwide. We make it easy and affordable for your school to implement these resources in a way that suits your objectives and unique needs. Take a look and see how the Auto-B-Good™ 9-Virtues SEL Program for grades K-6 compares:

## AUTO-B-GOOD™ 9-Virtues SEL Program for Elementary and Middle School

As a convenience to elementary and middle schools, a digital streaming license for the Auto-B-Good™ 9-Virtues SEL Program is available for purchase as a school-wide license through Rising Star Education's platform and our supported apps available worldwide in both English and Spanish. School licenses can be easily adapted to align to your school-wide SEL strategy and can be used with any configuration of Grades K-6<sup>th</sup> at a single school. For districts purchasing for multiple schools, each school license serves one school, whether an elementary school, middle school or combined K-8<sup>th</sup> school.

If you are purchasing for a single school, pricing varies by enrollment. For multisite purchases, pricing varies by number of schools. Pricing for both is discounted to provide additional savings for multiyear purchases.

When Purchasing one of the above programs, follow these steps to get started:

1. With your order, provide a staff member's name, their valid email address and phone number to designate them as the **account administrator**. This information is required and expedites the process. You may use your own name or submit the name of a team member.
2. Tell your account administrator that they'll receive an email from RisingStar.Digital ([support@vhx.tv](mailto:support@vhx.tv)) with instructions for assigning a school or user to each of your licenses. General license set-up information is below. For more information, see the **Administrator Setup FAQ**.

## GETTING STARTED

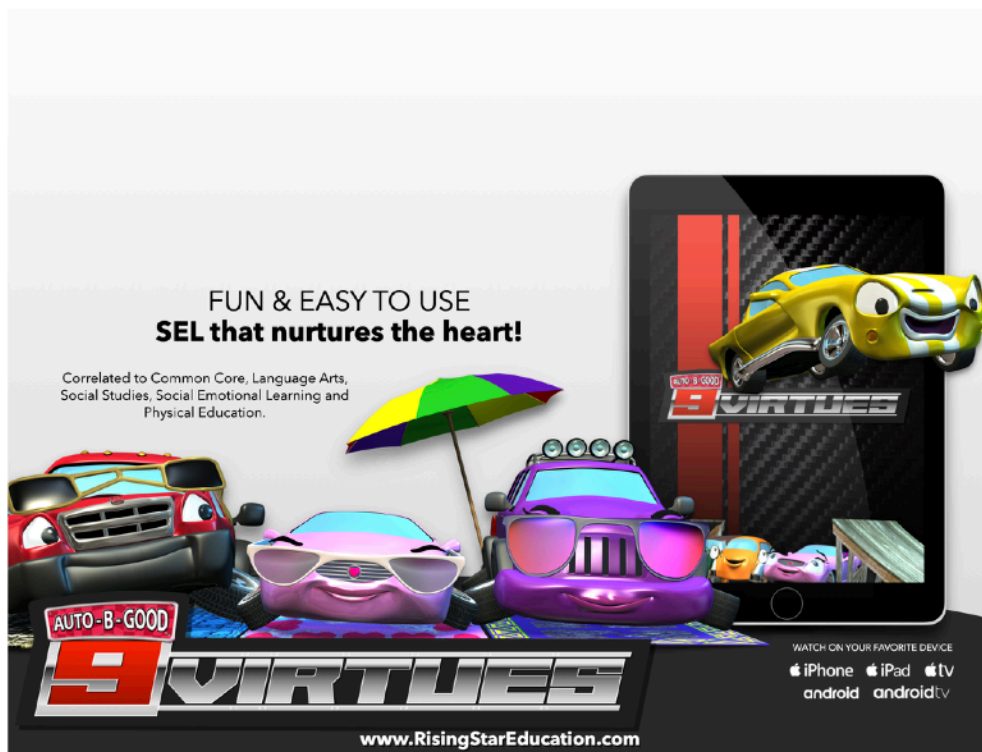

## Digital Program License Setup

Every tier of the school license includes up to 10 user profiles for every 250 students, which can be set-up for **specific** teachers, **general** classrooms or any **combination** of both. To expedite the process of activating your account, have the setup administrator simply send us your list of email addresses for each of the user profiles that you need created for your account. We'll get your account set-up and running in no time.

3. Administrators are automatically added as the primary user.
4. Site Leaders and additional users (either specific teachers, general classrooms or combination of both) are added by submitting a list of valid email addresses from the Administrator.
5. All invited users will receive an email notice about program access.
6. Work with your IT team to ensure emails from RisingStar.Digital ([support@vhx.tv](mailto:support@vhx.tv)) aren't blocked. You may also check your junk and spam folder if you don't receive expected Emails. You'll need to follow the emailed directions to access the programs, or **LOGIN** with your email and password at [www.RisingStarEducation.com](http://www.RisingStarEducation.com).
7. You can **download our apps** to install on all users and viewers devices for quick and secure access from anywhere.

### ***What's the difference with these types of users and viewers?***

It's all a matter of personal preference and what is convenient for you. Some schools prefer to give access to specifically named users, for example: Mrs Martinez. While others prefer to set-up their users for general use, for example: Grade 3 so students' devices could be set up for access with generic log-in credentials. In either case, valid email addresses are required because instructions will be emailed to each user with the final steps needed to create a password and activate their credentials. Once a user's credentials are set-up, up to 25 viewers per user account may be logged in with the user's credentials at any given time.
